Milano, 21/04/2026

Alpha Nova Capital, a search fund founded by Davide Ramazzina, has closed a €450K raise for the search phase and has already begun the active identification process of a high-potential Italian SME, with a long-term perspective.

Unlike traditional Private Equity, Alpha Nova Capital stands out for its entrepreneurial and operational approach: the founder will dedicate himself full-time to the acquired company, taking on its operational leadership in partnership with the entrepreneur and management.

The project is also born with the objective of supporting generational transition, protecting people and preserving ties with the local community, ensuring continuity, growth and sustainable development.

The vehicle aims to acquire an Italian SME with revenues up to €30M, EBITDA up to €5M, solid margins, stable cash flows and a strong competitive positioning.

Ramazzina has built over ten years of experience in investment banking (Deutsche Bank), strategic consulting (Bain & Company) and large corporates (holding roles of increasing responsibility within the Generali Group, including Head of M&A at Banca Generali), working throughout his career with entrepreneurs, managers and investors on growth, acquisition and industrial transformation transactions.

Ramazzina has also gained direct experience as an investor in Italian SMEs, with a focus on growth, reorganisation and turnaround, developed through investments and direct operational involvement — including the relaunch of an industrial-scale bakery with over 15 employees.

The investment partnership is backed by a group of over 20 Italian and international entrepreneurs, managers and investors, including Innesto Partners, Evolutiq, Inseta, ONEtoONE Asset Management, Turtle Capital, Legacy Partners, Eureka! Venture SGR (with ETA Fund, the first and only Italian institutional fund dedicated to the model), Spectra Investments and Ventus Capital.

"Alpha Nova Capital is born with the objective of building a long-term entrepreneurial project. The idea is to enter a company, develop a deep understanding of how it works and support its future development, ensuring continuity and growth. I believe there are several sectors set for a progressive phase of consolidation in the coming years, creating opportunities for the development of scalable platforms", commented Davide Ramazzina.

Legal counsel was provided by Gianni & Origoni (GOP), with the Partner Gerardo Carbonelli and the Associate Claudio Ascioffa, while tax advisory services were provided by Carlo Garzia and Giacomo Petrizzelli of Eptalex – Garzia Gasperi Iannaccone & Partners.
